SERVICE PICKER WORKSHEET

Pick the service you'll sell first. Not the one you love most — the one people already pay for, that you can sell, and someone else can do.

1. List five services you could sell. Things businesses already pay for.
2. Score each 1–5 on the five tests. Be honest.
3. Pick the highest total. If it's a tie, pick the one you can sell this week.

OFFER WORKSHEET

Nobody buys a shoot, a clean or a consult. They buy what it gets them. Build the offer from the outcome back.

1 · THE VALUE EQUATION

Value goes up with the first two and down with the last two. Make each one better.

	TODAY	HOW I MAKE IT BETTER
Dream outcome – what they actually want		
Proof – why they believe you'll get it		
Speed – how fast they see it

OUTREACH SCRIPT PACK

Short, human, specific. One reason you're reaching out, one question. Never sound like a template — even when it is one.

COLD EMAIL

SUBJECT:

{first name}, quick question

Hey {first name} – I saw {one specific thing: their listing, post, building, project}. {One line on what you noticed}.

We help {who they are} get {outcome} – {one proof point}.

Worth a 15-minute call this week?

{Your name}

DM (INSTAGRAM / FACEBOOK)

Hey {first name} – {genuine one-line compliment on something specific}. Quick one: are you handling {the thing you solve} yourself right now, or do you have someone on it?

COLD CALL OPENER

Hey {first name}, it's {name} – I know I'm calling out of the blue, can I take 30 seconds and you tell me if it's worth keeping going?

We work with {who} who are {the pain}. Usually it's {problem A} or {problem B}. Is either of those true for you?

LINKEDIN CONNECTION NOTE

{First name} – saw your work at {company}. I work with {who} on {outcome}. Would be good to be connected.

REFERRAL / WIN-BACK

Hey {first name} – it's been a while since {the job we did}. Two things: how's {their thing} going, and who do you know that could use {outcome}? I'll take great care of them.

THE FOLLOW-UP CADENCE – MOST DEALS CLOSE AFTER THE FIFTH TOUCH

TOUCH	WHEN	CHANNEL	WHAT TO SAY
1	Day 1	Email or DM	The first message
2	Day 3	Call	“Following up on my note – got 2 minutes?”
3	Day 6	Email	Something useful: a result, an idea, a short audit
4	Day 10	DM / text	One line: “Still worth a chat?”
5	Day 17	Email	The breakup: “Should I close your file?”

THE VAULT · COURSE 05 · SALES

DISCOVERY CALL SCRIPT

Your job on this call is to find the real problem — not to pitch. Ask, listen, write it down. Talk 30% of the time.

1 · OPEN (2 MIN)

Thanks for making the time. Here's how I'd like to use the next 30 minutes: I'll ask some questions to understand where you are, and if I think we can help, I'll tell you exactly how. If not, I'll tell you that too. Sound good?

2 · WHERE THEY ARE NOW (10 MIN)

QUESTION	THEIR ANSWER
Tell me about the business – what do you sell, and to who?	
What's working right now?	
What's not? What made you take this call?	
What have you already tried?	
What does it cost you if nothing changes in the next 6 months?	

3 · WHERE THEY WANT TO BE (5 MIN)

QUESTION	THEIR ANSWER
If we were sitting here 90 days from now, what has to have happened for you to be happy?	
Why does that matter to you – personally?	
What's stopping you from getting there on your own?	

4 · PRESENT (5 MIN)

Here's what I'd do. {Restate their problem in their words}. {Your offer, in one sentence}. {The three steps}. The investment is {price}. – then stop talking.

5 · CLOSE

Does that sound like what you need? … Great – I'll take the payment now and we start {day}.
If they hesitate: “What's the one thing that would stop you?” → go to the Objection Sheet.

THE VAULT · COURSE 05 · SALES

OBJECTION SHEET

An objection is a question you haven't answered yet. Agree, ask, answer, close. Log every one you hear — the same five come back again and again.

THEY SAY	WHAT IT USUALLY MEANS	WHAT TO SAY
“It's too expensive.”	They don't see the value yet, or it's the wrong package.	“Compared to what?” … “If it gets you {outcome}, what's that worth to you over a year?” Then offer the smaller package – never a discount on the same one.
“Now's not a good time.”	It's not a priority, or something else is going on.	“What would need to be different for it to be the right time?” … “What does waiting 90 days cost you?”
“Let me think about it.”	There's a question they haven't asked.	“Of course. What specifically do you want to think through? Let's do it now while I'm here.”
“I need to ask my partner.”	Real, or a polite no.	“Makes sense. What do you think they'll say? … What questions will they have? Let's get them on a call together this week.”
“Send me some info.”	A brush-off.	“Happy to. So I send the right thing – what's the one thing you'd want to see in it?” Then book the follow-up on the spot.
“We already have someone.”	Maybe happy, maybe not.	“Good. What would you change about how it's going?” … “Would it be worth seeing what a second option looks like?”

CRM TEMPLATE

One place for every lead, client, job and dollar. This is the setup we run our agency on — build it in Airtable, a spreadsheet or any CRM.

THE FIVE TABLES

TABLE	ONE ROW PER	KEY FIELDS
People	Person	Name · email · phone · company · source · status (Cold / Warm / Hot) · last touched · next touch date
Companies	Business	Name · website · type · people · deals · lifetime revenue
Deals (the pipeline)	Opportunity	Title · client · company · stage · value · product line · next action + due date · notes
Jobs (delivery)	Piece of work	Deal · stage · due date · who's doing it · cost · delivered link · approved?
Invoices	Bill	Deal · amount · sent date · due date · paid date · status

PIPELINE STAGES

STAGE	MEANS	MOVE IT WHEN
New / Prospect	On the list, not contacted	You reach out
Qualifying	Talking, not sure they fit	They agree to a call
Opportunity	Real need, call booked or held	You've sent the offer
Negotiation	Discussing price / scope	They say yes
Closing	Yes – waiting on payment / signature	Money's in
Closed	Paid – job starts	Job moves to delivery
Lost	Not now – note why	–

THE RULES

Every deal has a next action and a date. Every call gets a one-line note the same day. Check the pipeline every Monday – anything with no next action is dead until you give it one.

THE VAULT · COURSE 10 · LEADERSHIP & MANAGING A TEAM

WEEKLY MEETING AGENDA

Same day, same time, same agenda, every week. 45 minutes. Start on time, end on time.

TIME	SECTION	WHAT HAPPENS
5 min	Wins	Everyone shares one win from the week. Business or personal.
10 min	Scoreboard	Each number: on track or off track. No discussion yet – just the number.
5 min	Last week's commitments	Done or not done. No stories.
20 min	Issues	List them, pick the top three, solve them. Every solution becomes a commitment with an owner and a date.
5 min	Commitments + close	Read back who's doing what by when. Rate the meeting 1–10.

REVENUE TARGET CALCULATOR

Work it backwards. The monthly number turns into a weekly number of conversations. That's the only number you manage.

	STEP	EXAMPLE	MINE
A	Monthly revenue target	$30,000	
B	Average price per client per month	$3,000	
C	Clients needed (A ÷ B)	10	
D	Clients you already have	4	
E	New clients needed (C - D)	6	
F	Months to get there	3	
G	New clients per month (E ÷ F)	2	
H	Close rate on calls (closed ÷ calls)	25%	
I	Calls needed per month (G ÷ H)	8	
J	Show-up / booking rate (calls ÷ conversations)	20%	
K	Conversations per month (I ÷ J)	40	
L	**Conversations per week (K ÷ 4)**	**10**	

MY WEEKLY NUMBER

To hit my target I need _____ **conversations a week**, which means reaching out to _____ **people a week**.

THE VAULT · COURSE 12 · GET OUT OF THE WORK

REPLACEMENT MAP

Every role you play, and who takes it. Step out of delivery first, then sales, then management.

ROLE I PLAY	HOURS / WEEK	WHO TAKES IT (OR HIRE)	SOP WRITTEN?	HANDOFF DATE	DONE
Doing the work (delivery)					
Quality control					
Client communication					
Finding leads					
Sales calls					
Invoicing / chasing money					
Hiring					
Managing the team					
Admin / bookkeeping					

THE ORDER

1. **The work** – goes first.
2. **The selling** – train someone to sell it like you.
3. **The hiring** – they find the people.
4. **The operation** – a manager runs the day.
